

ML Engineer

Docsy is a brand-new startup in stealth mode. Our vision is to build a digital AI that automatically manages all your documents and paperwork. At the core is our distributed learning technology leveraging cutting edge research in data science and neural networks.

We are looking for a Machine Learning engineer with a passion for deep learning and neural networks and the data to train it, with self-motivation and drive to push the newest AI technology to the limits.

We offer:

- Development of the latest, greatest deep learning technologies, including
 - Natural Language Processing
 - Graph Neural Networks
 - Distributed Learning
- Highly competitive compensation
- Stock option plan as one of the first employees to the company
- Unique work environment
- Working with renowned AI experts
- Requirements:
 - Very strong programming and software development skills (e.g., Python, C++, etc.)
 - Practical experience with deep learning frameworks such as PyTorch and TensorFlow
 - Strong communication skills (fluent in English is a must)

Please submit your CV, as well as your grade transcripts and any recommendation-letter you might want to share to info@docsy.de.

docsy GmbH is an equal opportunity employer and welcomes applications from all qualified individuals regardless of ethnicity, sex, disability, religion/belief, sexual orientation or age.
